

The play-anywhere board game of pyramid-rearranging!

TREE HOUSE™

A quick & easy game for 2-4 players. Plays in 7 minutes!

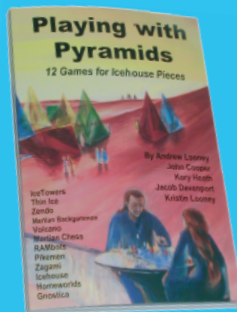

Big fun in a little package, enjoyed by adults and young kids alike! Each player rolls the custom die to determine if they will TIP, SWAP, DIG, AIM, or HOP one or more of their pyramids to get their Tree of three pyramids to change configuration until they match the shared goal called The House.

Treehouse has that "Let's Play Again" appeal, but it's also educational! Treehouse helps meet National Standards in geometry, data analysis and problem solving.

Treehouse is the first game of a larger gaming system known as **Icehouse**. Like a deck of playing cards, there are hundreds of games you can play with these colorful "Martian" gaming pieces.

Playing with Pyramids is a fully illustrated 128 page book containing complete rules and strategy advice for many of the best games you can play when you collect five matching Treehouse sets (thus forming a classic Icehouse set). These include **IceTowers**, **Martian Chess**, **Homeworlds**, **Zendo**, and 8 other wildly different abstract strategy games.

MARTIAN COASTERS

Martian Coasters is not a stand alone game. It's a set of four 4" beverage coasters which can be used along with a Treehouse set (including its custom die, plus a standard six-sided die) to play an easy, fast, fun game for all ages. It's a zany little race across a shifting grid of squares and arrows.

Available in 2 styles:

Rainbow:

- Red
- Yellow
- Green
- Blue
- Black

Xeno:

- Clear
- Cyan
